Battalions of the 12th Infantry Has a Brush With the Enemy Near Calulet.

THE INSURGENTS WERE ENTRENCHED.

The Filipinos Sent Heavy Volleys Against the Whole American Line, But Shooting Too High.

Unable to Withstand Our Continuous Volleys the Rebalt Abandoned Their Treaches and Retreated Northward-Intense Beat-

MANILA, Aug. 18 -The 12th infantry left Calulet at sunrise Thursday and advanced up the railway.

Capt. Evans' battalion deployed to to the left. Two companies remained ! on the track with the artillery. The insurgents were found well intrenched in front of the town, the trenches hav-ing been dug within a few days and since the occupation of Calulet.

At a distance of 1,500 yards the Filipinos opened fire. Their force was esthough the residents afterward said it exceeded these figures by a thousand. The enemy sent heavy volleys against the whole American line. Most of their shooting, as usual, was high, but they concentrated their heaviest fire down the track upon the artillery. Col. of Dress Goods amounting to Smith kept the whole line moving rapone dollar and upwards. Ma- idly with frequent rushes. The insurgents attempted to flank Capt. Evans, terial for a shirt waist pattern and therefore two companies were sent

Unable to stand our continuous voldollars, and material for a leys, the Filipinos abandoned the dress on amounts of three dol- trenches and retreated through the town northward. It appears that they had only received their supply of ammunition Thursday morning. Had they been attacked sooner, they could have made little resistance.

The intense heat caused much suffering among the Americans. A reporter of the Manila Times, who was accompanying Col. Smith was shot in the head probably fatally. One American officer received a slight wound in the

There's No Need to in Marietta. The way is almost Hedged With Guide Posts.

Have you ever read a newspaper at ticle, a glowing account of some inci-dent to'd in clusive words to lend you ou, and found it ended up with a pro-prietary medicine advertisement? made you mad, didn't it? and were 'you con-vinced of the merit of the article? We think not because it told the experithink not, because it told the experithing hot, because it took the experiences of some stranger in a far away town, to take his word for it was like "going it blind." It's a very different thing when a statement is prescribed from a citizen; from people we know and that's the case here.

CHINESE COMMERCE.

Interest Increased in It by the Recent Developments in the Conntry.

Interest in the commerce of China is Increased materially by the recent developments in regard to transportation and privileges of foreigners. A publication of the treasury bureau of statistics shows that over 3,000 miles of railway are now projected in China, more than 3,000 miles of telegraph are in operation, and by action of the Chinese government the waterways of China, its most important means of internal traffic, have been opened to foreign commerce and foreign vessels.

An edlet announces that foreign vessels may navigate the streams of all provinces of China on which treaty ports are located. As these ports are now distributed practically over the entire empire this means that foreign vessels may navigate the streams of substantially all parts of that vast country. The natural waterways of China aggregate fully 10,000 miles in length, and this combined with the proposed railway systems when completed will offer to other parts of the world opportunities of great importance whether reached by rail from the commercial centers of Europe or by water from the Pacific or Atlantic

A FORMIDABLE WEAPON.

Test of New Four-Inch Gun Proves It to lie the Bost Effective Gun of its Kind in the World.

Tests at the Indian Head proving cound of a four-inch gun representno the latest advance in mayal ordunnee anufacture has demonstrated that the United States government is in posession of the most formidable wearon of the kind in the world. The gun was esigned by the bureau of ordnance and has a chamber large enough to be ommodate the charge of powder caried by the old five-inch weapon.

With a charge of 17 pounds of per forated grain navy smokeless powder a muzzle velocity of 2,991 foot seconds vas obtained, with a muzzle energy of 2,049 foot tons and with a chamber pressure of 16.05 tons per square inch. With a charge of 16% pounds a muzzle velocity of 2,037 foot seconds was obtained, with a muzzle energy of 1,972 foot tons. The inuzzle energy of the new gun is 78 per cent, greater than that of the old.

A new type of mount for the heavy four-inch gun was also tested and worked in a thoroughly satisfactory manner.

In addition to their 12-inch turret uns, the new monitors will each have an auxiliary battery of four of the new four-inch guns.
